

# Language Name Index

This index lists every name that appears in Part I as a primary or alternate name of a language or dialect. The following abbreviations are used in the index entries: *alt.* ‘alternate name for’, *alt. dial.* ‘alternate dialect name for’, *dial.* ‘primary dialect name for’, *pej. alt.* ‘pejorative alternate name for’, and *pej. alt. dial.* ‘pejorative alternate dialect name for’. The index entry gives the primary name for the language

with which the given name is associated, followed by the unique three-letter language code in square brackets. The numbers identify the pages on which the language entries using the indexed name may be found. If the list of page references includes the entry in the primary country, it is listed first. The entry for a primary name also lists page numbers for the maps on which the language occurs.
